Dear Hiring Manager

I am excited to apply for the Lead QA SDET Test Engineer role. With around **12 years** of experience across **MSCI, AppDirect, PTC Software, Fiserv, and Cybage Software**, I have developed a strong expertise in **Test Automation, API, UI, and performance testing.**

My core tech stack includes **Java, JavaScript, Python, Selenium, Playwright, Rest Assured, Gatling, Spring Boot, Postman, Docker, Kubernetes, and Microservices**. At MSCI, I led end-to-end QA for the Barraone platform, driving test automation and performance testing initiatives. In prior roles, I elevated automation coverage and collaborated closely with cross-functional teams to ensure robust, quality releases.

I am keen to bring my technical and leadership skills to your team. Thank you for your consideration.

Sincerely,
Vishesh Gupta
