Dear Hiring Manager,

I am excited to apply for the **Lead SDET / Quality Engineering** role. With over **12 years of experience** in Quality Engineering and Test Automation, I have built scalable UI, API, integration, and performance testing solutions across financial services, SaaS, IoT, and payments.

At **MSCI**, I lead Quality Engineering for the **BarraOne** platform, driving automation strategy, shift-left testing, API performance testing with Gatling, and AI-assisted engineering workflows that improved engineering productivity by **approximately 40%**. My expertise includes **Java, Playwright, Selenium, REST Assured, Docker, Kubernetes, CI/CD, and modern software quality practices**.

I would welcome the opportunity to contribute my technical expertise and leadership to your engineering team.

Thank you for your time and consideration. I look forward to discussing how I can contribute to your organization.

Sincerely,

Visheshkumar Gupta
